feel good

We created **shop@DH** to make you **feel good** while you **do good***

shop@DH is on a mission to make a difference.

To share good energy. To spark conversation. To fuel what the Delivering Happiness movement is doing every day — creating lasting happiness in communities and companies around the world.

Part of shop@DH, the **DH Collection** is designed to match your many layers of life. All of the pieces are made out of the softest fabrics and cut to be worn anytime, anywhere — inspire others as you take charge of your busy days (and nights).

Manufactured in Downtown L.A.

Created with love, designed for comfort, made with care, infused with joy

Purposeful graphics encourage positive thoughts and project how you feel inside

What is Delivering Happiness?

What We Do

We help people and companies find lasting happiness through science, passion and purpose.

How We Do It (3Cs)

We provide tools and guidance through:

- **Culture Consulting**

Our DH@work team helps organizations create their own unique work cultures to unleash happiness, human potential and business success. The same principles that grew Zappos to \$2 billion are combined with the world's leading science on happiness and best practices from the world's top work cultures.

- **Communities (inspire! events — mini TED Talks)**

Whether it's online on our website, Facebook or Twitter, or offline at our inspire! events, we're bringing people together. Not just your ordinary folks — these are VHPs (Very Happy Persons) that have made the commitment to make this world a happier place. Come join the movement! Share your stories and inspire others at deliveringhappiness.com.

- **Clothing line**

Everything for shop@DH was designed to make you feel good while you do good — so that together, we can continue making the world a happier place.

All of our net profits fuel the movement to create happier companies, communities and cities. One by one, we create a happier world.

Why We Do It

We believe that by prioritizing happiness in work and life, we can create change in the world more than we ever thought possible.
