What is Delivering Happiness?

What We Do

We help people and companies find lasting happiness through science, passion and purpose.

How We Do It (3Cs)

We provide tools and guidance through:

- **Culture Consulting**

Our DH@work team helps organizations create their own unique work cultures to unleash happiness, human potential and business success. The same principles that grew Zappos to \$2 billion are combined with the world's leading science on happiness and best practices from the world's top work cultures.

- **Communities** (inspire! events — mini TED Talks)

Whether it's online on our website, Facebook or Twitter, or offline at our inspire! events, we're bringing people together. Not just your ordinary folks — these are VHPs (Very Happy Persons) that have made the commitment to make this world a happier place. Come join the movement! Share your stories and inspire others at deliveringhappiness.com.

- **Clothing line**

Everything in the shop@DH was designed to make you feel good while you do good — so that together, we can continue making the world a happier place.

All of our net profits fuel the movement to create happier companies, communities and cities. One by one, we create a happier world.

Why We Do It

We believe that by prioritizing happiness in work and life, we can create change in the world more than we ever thought possible.
